

## Meeting CERN 2

### PRE - De -inha parte

- Atividades PDIS
- CURSO CEDME → onte - 1º - módulo

||  
processo de  
investigação

### Q & A

↳ send slides?

### Rodrigo apresenta

↳ Versions overlap?

↳ who makes contribu requests? Person who creates activity?

||  
↓  
Responsible  
group fro-  
activity

aggregate

↳ for which activity  
co - - and is for

⇒ access to the platform - ?

event log

↳ kept until  
plan over

Pascoal Q?

↳ events collected  
im - - ediatly  
in current state?

⇒ evaluate →

store is  
event store

||  
↓  
that's it

||  
↓  
then separate  
transact

## Fernando presenta

↳ text in field when asking contained

1. Cloning activity exists

↳ tool would suggest and ask if want to clone

⇒ auto-complete feature

under the hood ??

Rodrigo ⇒ extract from Data Store + sequence of events

next meeting → I show -y ideas ??

→ how to structure the problem?  
how to go about it?  
considerations
